Sharm January 2007

How do we do it for the price?

Over the past few years the Divemaster Scuba has built up a superb reputation for low cost diving holidays. This includes groups totalling over 200 people. We work in partnership with some of the leading names in the industry to bring the cost benefits of group bookings and the company of like minded people together to form what is a dynamic and exciting holiday package. Non divers and singles are always welcome. We only use fully bonded travel companies.

Singles and Single Room Supplements

Our groups consist of singles, couples and families of all ages and professions. This leads to a great sense of fun and adventure, sharing our passion for diving and simply having a good time. Accommodation is generally based on twin room occupation. For single bookings we allocate rooms on a same sex sharing basis. There are no single supplements unless you specifically request a single room.

Terms and Conditions

We don't have many. With all our holiday booking the terms and conditions of the holiday company will apply. These are available on their www site, and a copy can be obtained through the Dive Centre. Where prices are marked as provisional, an option of a full refund will be given if the final price exceeds the quoted price, in all other circumstances deposits are non refundable. Final payments must be received 12 weeks before the departure date or deposits will be lost. Where dive and training packages are taken these include cylinder, weights and air but not equipment hire unless specifically stated. Equipment hire is separate and may be supplied either at resort or from the UK at competitive rates. All flight times are as stated by the travel airline and may be subject to change.

Unforeseen Events....

Things happen, and if you have to cancel you would normally lose your deposit. Your holiday insurance should take care of this, so make sure that you are covered at the time of booking. We also have a great track record of helping people in difficult situations. Sometimes we can negotiate name transfers which can reduce any lost deposits right down to a minimum. It is this sort of help and understanding which puts Divemaster Scuba head and shoulders above all others. Add to this no single supplements unless you specifically request a single room, an easy friendly atmosphere and you can book with confidence and security.

Insurance

We find that most people may already have holiday and diving insurance. This is not included in the price, but it is a condition of booking that you must have holiday insurance. The Post Office offer holiday insurance which includes Scuba Diving and for the more adventurous take a look at dogtag.co.uk.

Diving

The standard diving package is five days, 10 dives. 2 boat dives per day including cylinders and weights. Third dives and night dives are available at extra cost. If you are on a 14 day holiday you can spread your dives over the two week, or add extra days as required.

Courses

All diving courses (unless specifically notified) are priced using dives from the pre-paid dive package and do not include kit hire or crew packs. For wreck and night specialities, extra dives may be required and paid for locally by the student. Other courses may require some academic work in the UK before the holiday. You will be notified of this when booking. Equipment can be hired locally or directly through Divemaster Scuba at normal Dive Centre Rates.
